

June Business Insights & Management Control

Morbido Express Restaurant | 01-30 June 2026 | Invoice-ledger control

Actual Sales incl. VAT	Net Item Sales incl. VAT	VAT	Charges incl. VAT	Fulfilled Bills	Average Cheque
AED 108,172.75	AED 107,591.75	AED 5,124.92	AED 581.00	1,816	AED 59.57

Charge allocation by originating order type

Order Type	Orders	Gross Item Sales	Discounts	Net Item Sales incl. VAT	VAT	Charges incl. VAT	Actual Sales incl. VAT
Dine In	684	AED 38,162.00	AED 2,964.30	AED 35,197.70	AED 1,676.78	AED 50.00	AED 35,247.70
Pickup	488	AED 21,923.00	AED 1,660.15	AED 20,262.85	AED 965.29	-	AED 20,262.85
Delivery	52	AED 8,157.00	AED 30.50	AED 8,126.50	AED 387.00	AED 531.00	AED 8,657.50
Talabat	577	AED 48,356.00	AED 5,806.30	AED 42,549.70	AED 2,026.54	-	AED 42,549.70
Keeta	15	AED 1,455.00	-	AED 1,455.00	AED 69.31	-	AED 1,455.00
TOTAL	1,816	AED 118,053.00	AED 10,461.25	AED 107,591.75	AED 5,124.92	AED 581.00	AED 108,172.75

Re-audit conclusion: AED 531 belongs to Delivery invoices and AED 50 to Dine In invoices. The other order types contain no invoice charges. Charges are part of Actual Sales but remain separate from item/category revenue.

Meal Time-Based Revenue Comparison

Meal slots use invoice settlement time. Zero values are shown as a dash.

Meal Slot	Time Slot	Orders	Revenue incl. VAT	Discounts	VAT	Charges incl. VAT	Average Cheque
Midnight Sales	12:00 AM-06:00 AM	3	AED 399.20	AED 25.80	AED 18.30	AED 15.00	AED 133.07
Breakfast	06:00 AM-11:00 AM	-	-	-	-	-	-
Lunch	11:00 AM-04:00 PM	555	AED 36,335.60	AED 2,945.40	AED 1,718.89	AED 247.00	AED 65.47
Snacks	04:00 PM-07:00 PM	463	AED 29,075.00	AED 3,577.00	AED 1,377.63	AED 152.00	AED 62.80
Dinner	07:00 PM-12:00 AM	795	AED 42,362.95	AED 3,913.05	AED 2,010.10	AED 167.00	AED 53.29
TOTAL	24 hours	1,816	AED 108,172.75	AED 10,461.25	AED 5,124.92	AED 581.00	AED 59.57

Management report coverage

Summary	Status	Management use
Sales / Z, bills, order type, payment, discount	Available	Financial close and reconciliation
Category, sold items, KOT cancellations	Available with controls	Product and leakage analysis
Meal time, weekday, weekly, channel mix	Available	Capacity and sales planning
Expense, wallet, due received/receivable	No source data	Do not print zero as if audited
Cash denomination and payment variance	No count/settlement source	Variance cannot be assessed
Delivery boy, waiter, kitchen department	Partial or missing keys	Requires employee and event-level identifiers

Control principle: unavailable operational facts are labelled NOT CAPTURED rather than represented as zero. This prevents a blank source from being mistaken for a valid nil balance.

Developer correction map

Control	Current risk	Required calculation / data rule
Order-type charges	Charges shown only at grand total	Group invoice charge facts by immutable order_id and order_type; sum to AED 581.
Category / item summaries	Charges force a gap to invoice sales	Reconcile item/category totals to Net Item Sales; append a separate charge bridge to Actual Sales.
VAT on charges	Tax On Charges is zero	Store charge type, taxable flag, VAT rate, VAT amount and legal treatment for every charge line.
Zeros	Zero values create visual noise	Dashboard/print: black dash. Excel: blank numeric cell with dash-compatible number format.
Meal slots	No controlled comparison	Assign each supplied invoice to exactly one configured half-open time interval.
Payments	Split allocation export omits AED 1,181.90	Explode invoice x tender allocations; never use collections as the output-VAT filing basis.

Sign-off: Actual Sales incl. VAT AED 108,172.75 = Net Item Sales incl. VAT AED 107,591.75 + Charges incl. VAT AED 581.00. Invoice VAT remains AED 5,124.92; charge tax classification still requires documented confirmation.
